

From Principal Crane:

It has been an amazing year at The Phoenix Academy. We have had so many awesome and amazing experiences. Our students have excelled in many ways. We have seen leadership evolve in students that did not know they possessed strong leadership skills. We have watched students take ownership of their learning while preparing for the future. This year we will have 109 graduates, a 41.5% increase in graduates from last year. What do we attribute this to? Committed and dedicated students who set a goal to graduate and maintained their focus until they reached the finished line. The students, staff, and administration were “ALL IN”! We rose to the occasion thereby rising to greatness. Thank you to all of our volunteers and the Mansfield Rotary Club for partnering and supporting us. Thank you to the MISD Grant Foundation for helping us to be innovative in providing opportunities of real-world experiences for our students. Thank you to every high school campus that supported your students and trusted us to work collaboratively with you in helping OUR students to graduate.

As we anticipate an even greater 2017-18 school year, we want our potential students to know that we are looking forward to your coming and you too will have an amazing experience as well. We want our parents to partner with us in creating a strong support system for every student.

At the Phoenix, we want the community and city to know that great things are happening in our building, so always feel free to stop by and visit. One of our student ambassadors will be glad to take you on a tour.

Have a safe and fun summer.....see you on August 16th ready to “Rise to greatness”!
