

## From The Principal

We have made some historical landmarks that we are super excited about and proud of. By the end of the fall semester, we graduated a record 53 students! Our amazing students completed over 569 credits which means 1138 courses were completed! We also had our first Thanksgiving Community Dinner where students' families, community leaders, district leaders, and Phoenix partners were served a traditional home-cooked Thanksgiving dinner. As I reflect back on this past semester, I stand amazed at the incredible students we get to serve every day. To our parents, thank you for the opportunity to join your village of support to ensure your student is successful in reaching their goal of graduating. We are anticipating many more students to reach that goal of becoming a 2019 graduate. Please continue to follow us on Facebook and Twitter. There are so many other exciting things we are doing in the community and on our campus. As always, parents and community, you are welcome to stop by and check us out. We like shining in the community. At the Phoenix Academy we continue to be "DEEP IN"!
